

SHUBHAM HARIYALE

Leicester, UK (Open to Relocation) | +44 07554519948 | shubham.hariyale.uk@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with over one year of commercial experience designing, developing, testing, and maintaining business-critical web applications using C#, .NET, ASP.NET Core, SQL Server, JavaScript, Python, and REST APIs. Recently completed an MSc in Advanced Computer Science with Distinction from the University of Leicester. Passionate about building scalable software, solving complex technical problems, and continuously learning modern software engineering practices within collaborative Agile teams.

TECHNICAL SKILLS

- **Programming Languages:** C#, Python, JavaScript, SQL, Java (Academic Exposure)
- **Backend Development:** .NET, ASP.NET Core, ASP.NET Web API, REST APIs, MVC Architecture
- **Frontend Development:** JavaScript, HTML, CSS, Responsive Web Development, React (Academic Exposure)
- **Software Engineering:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Design Principles, Software Development Life Cycle (SDLC), Debugging, Unit Testing, Software Testing Fundamentals
- **Databases:** SQL Server, Relational Database Design, Stored Procedures, Query Optimisation
- **Development Practices:** Agile/Scrum, Git, GitHub, Code Reviews, CI/CD Concepts, Azure DevOps (Basic)
- **Tools & Platforms:** Visual Studio, SQL Server Management Studio, Postman, Docker (Basic), Azure Fundamentals
- **Additional Skills:** Problem Solving, Technical Documentation, AI-assisted Software Development

PROFESSIONAL EXPERIENCE

Software Developer (.NET) | Osiya Tech – Indore, India | April 2023 – August 2024

- Developed and maintained business applications using C#, ASP.NET Core, SQL Server, and REST APIs.
- Designed and implemented backend services supporting business-critical workflows and system integrations.
- Developed and optimized SQL queries, stored procedures, and relational database structures to improve system performance.
- Participated in all stages of the software development lifecycle, including requirements analysis, design, development, testing, deployment, and maintenance.
- Investigated and resolved software defects, production issues, and performance bottlenecks through debugging and root cause analysis.
- Collaborated within Agile development teams to deliver scalable and maintainable software solutions.
- Conducted software testing, code reviews, and documentation activities to improve software quality and reliability.
- Used Git for source control and collaborative software development.

PROJECTS

Stock Control System (MSc Dissertation Project)

Technologies: C#, ASP.NET, SQL Server

- Designed and developed a secure multi-user inventory management system supporting stock management and reporting operations.
- Developed REST APIs and Implemented role-based authentication, transactional processing, and concurrency control for multi-user operations.
- Designed relational database schemas, stored procedures, and optimized SQL queries for efficient data processing.
- Applied object-oriented programming principles, layered architecture, and software engineering best practices.
- Performed testing, debugging, validation, and performance optimization throughout the development lifecycle.
- Strong interest in Financial Technology (FinTech), trading systems, concurrent programming, and scalable backend architectures.

Business Website (Production System) | [Livesite](#)

Technologies: ASP.NET Core, SQL Server, JavaScript

- Developed a responsive web application with integrated backend services and database functionality.
- Implemented business workflows and optimized application performance.
- Designed maintainable application architecture using software engineering principles.
- Collaborated on requirements analysis, testing, and deployment activities.

EDUCATION

- **MSc Advanced Computer Science (Distinction) | University of Leicester, UK | Jan 2025 – Jun 2026**
Relevant Areas: Artificial Intelligence, Software Engineering, Data Systems, Systems Design, Cyber Security, Algorithms & Data Structures
- **MBA – Marketing & Business Analytics | D.A.V.V. University, India | 2021 – 2023**
- **BSc Computer Science | D.A.V.V. University, India | 2018 – 2021**

CERTIFICATIONS

Leicester Virtual Internship Programme | University of Leicester / Practera (2026)

- Conducted research, analysis, and recommendation development for a real-world client project.
- Collaborated within a multidisciplinary team to solve business challenges.
- Developed communication, teamwork, analytical thinking, and problem-solving skills

ADDITIONAL INFORMATION

- Eligible for Graduate Route Visa
- Available immediately
- Open to relocation throughout the UK
- Strong problem-solving, analytical, communication, and teamwork skills
